Full Name: ____

1 A spacewalk is when an astronaut gets out of a vehicle while in space. Spacewalks usually last between five and eight hours, depending on the job. Astronauts go on spacewalks to work outside their spacecraft, or to do science experiments. Spacewalks also let astronauts test new equipment. They can repair satellites or spacecraft without bringing them back to Earth to fix.

2 When astronauts go on spacewalks, they wear spacesuits to keep themselves safe. Inside their spacesuits, astronauts have the oxygen they need to breathe and the water they need to drink. Astronauts put on their spacesuits several hours before a spacewalk. And they breathe pure oxygen for a few hours. Then, they leave the spacecraft through a special door called an airlock. That way the air inside the spacecraft is preserved.

3 When on a spacewalk, astronauts use safety tethers to stay close to their spacecraft. Tethers are like ropes. One end is hooked to the spacewalker. The other end is connected to the vehicle. The safety tethers keep astronauts from floating away into space. Astronauts also use tethers to keep tools from floating away.

Astronauts train for spacewalks in two ways. First, they go for a swim. Astronauts practice spacewalks underwater in a large swimming pool called the Neutral Buoyancy Laboratory, or NBL. It is near NASA's Johnson Space Center in Houston, Texas. The pool holds 6.2 million gallons of water. Second, astronauts practice for a spacewalk by using virtual reality. It is much like playing a video game. Astronauts wear a helmet with a video screen inside. They also wear special gloves. On the screen inside the helmet, they watch a video of what they will see during a spacewalk. And with the help of the special gloves, astronauts can

also see their movements with the video. The virtual reality simulation looks and feels just like a spacewalk.

I. <u>Comprehension: (8pts)</u>	Source. https://www.hasa.gov
A. Give a title for the text (1pt):	
B. Answer the following questions:	(4pts)
1. How long does it take to finish a spacewalk:	
2. What is a spacesuit?	
3. Why do astronauts use the special airlock?	
4. How do astronauts train for spacewalks?	
C. Say if True or False, and Justify:	<u>(3pts)</u>
1. Astronauts perform spacewalks inside a vehicle in space:	
2. Astronauts use tethers for their security:	
3. NBL is a space station:	

Date: April 25, 2019

Class: _____

п.	Language		<u>(8pts):</u>		
Α.	Match a line (a-d) with a line (1-4):		(2pts)		
а	I don't think we have enough bread;	1. so I always drive carefully.			
	I don't like to have a road accident,	2. Because I have a lot to do during the day.			
	Why do you always get up early?	3. go to school with?			
d.	Who do you usually	4. I'll stop at the bakery on my way.			
в.	Put the verbs between brackets in the past simp	le tense:	(2pts)		
1.	(Read / you) the instructions	well?			
2.	2. I (be not) her first Harry Potter book.				
3.	President Dwight D. Eisenhower (start)	the American Space Program in 1957.			
C.	Fill the gap with the right word from the box:		<u>(2pts)</u>		
some – would you – any – how much – a – how many – would like					
1.	1 weeks is it until your wedding?				
2.	Ia carton of milk, please.				
3.	I need honey for my tea.				
4.	food do you eat a day?				
D.	Finish the sentences with the correct preposition	n:	(2pts)		
1.	The new club is going to open 5 o'clo	ock the morning of the 20th.			
2.	The final exam is June.				
3.	They rarely stay home the weekend.				
111	Writing:				
Write about a place you visited (a shop, a monument, a city, a countryetc). Describe how it was in the past, and					
how it changed over time. Use the past simple tense. (4pts)					
	<u>C</u>
